Introduction

This job aid shows physicians how to enter time. It covers three different scenarios:

1. Time entry for medical directors and clinical advisors (including over contract hours)
2. Time entry for on call physicians
3. Time entry for ophthalmologists

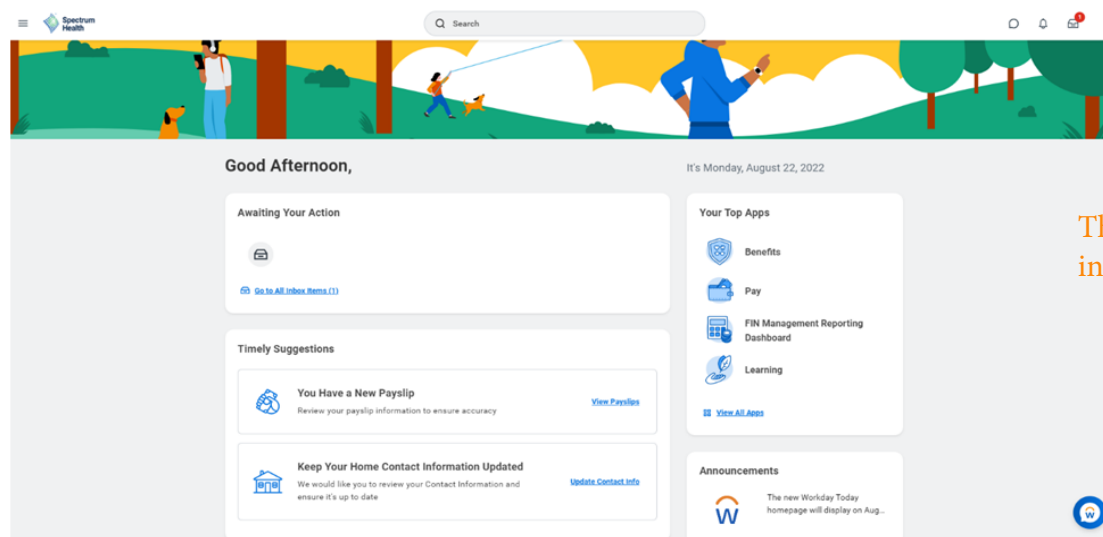

I was required to add "Time" as an application before I could select it. It was not part of my default home page.

Note: Time is submitted monthly. After all time is entered for the month, then the worker can submit. Delegates cannot submit time for the worker.

View the different scenarios below:

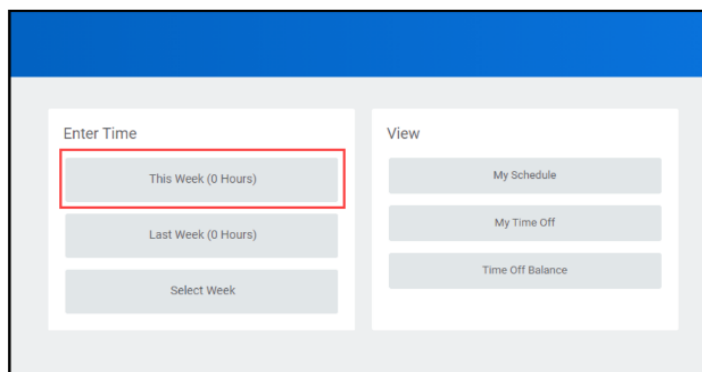

Time Entry for Medical Directors and Clinical Advisors

- To enter time, click the **View All Apps**> select **Time** application on your homepage.

This is where the instructions start?

- Select the week for which you would like to enter time. In this example, we have selected **This Week**.

- Select the proper **Time Type** from the available drop-down list, then enter the hours for each day. Use the **Comments** function if you would like to include comments.

We would prefer larger images with a clear display of Arial 12pt with a 2 pt black box. See display above.

- To add a new **Time Type**, click the **Plus** icon. To remove a time entry, click the **Minus** icon. Once complete populating your time entries, click **OK**.

- Your time entries (shaded in gray) will display in a **Week** view.

Note: You will receive an alert if the hours submitted have exceeded the monthly hours defined in your contract. This does not prevent you from entering time.

- Click a time entry if you would like to make modifications. To add additional time entries to the current week, click **Actions** then **Enter Time by Type**.

- Once all the time for the month is entered, review your time entries and click **Review**.

NOTE: Time is submitted monthly. After all time is entered for the month, then the worker can review and submit their time. Delegates cannot submit time for the worker, only enter time.

- Review the declaration. If needed, include a comment in the **Comments** field, otherwise, click **Submit**.
